

How to create a route?

- Tap on the screen center icon **1** and on **“Create a placemark...”** **2**;
- Choose **“Route”** **3**;
- If desired, type a name in the **“Name”** **4** text field;
- If desired, change the folder **5** in which to save the route;
- Tap on **“Ok”** **6** to validate.

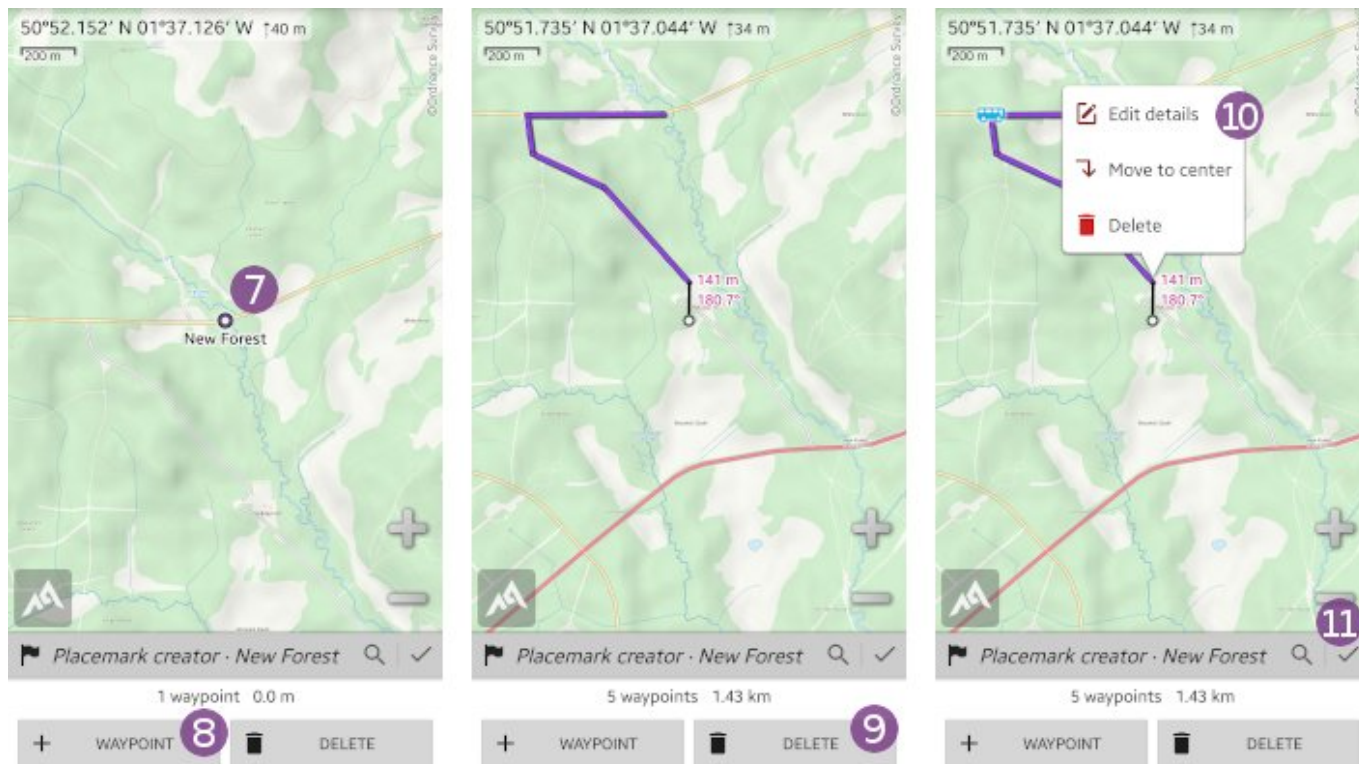

The edit mode is activated and a first waypoint is automatically added at the screen center **7**. To add more waypoints:

- Move the screen center icon over the next location and tap on **“Waypoint”** **8**;
- If needed, you can delete the last added waypoint by tapping on **“Delete”** **9**.

While in edit mode, you can also edit any existing waypoint by tapping on it to display a popup menu. Tap on **“Edit details”** **10** to edit the details of the waypoint (name, icon, color, description, etc.).

When finished, tap on the **“Save & close”** **11** icon.

How to add, move or delete points of a route?

To add, move or delete points of a route you need to activate the edit mode of the route:

- Tap on any waypoint of the route you want to edit **1** and on the route name **2**;
- Scroll down the menu and choose **“Edit points”** **3** to activate the edit mode.

The edit mode of the route is activated. To add waypoints, just process as explained in the section above.

To move a waypoint:

- Move the screen center icon over the new location **4**;
- Tap on the waypoint you want to move **5** and on **“Move to center”** **6**.

To insert waypoints after an existing waypoint:

- Tap on the existing waypoint **5** and on **“Insert here”** **7**;
- Tap on **“Waypoint”** **8** to add new waypoints.

To delete a waypoint:

- Tap on the waypoint **5** and on **“Delete”** **9**.

When finished, click on **“Save & close”** **10**.
