

Custom menu buttons

The application allows you to edit the items available in the main sub-menu in order to choose the actions you use the most:

- To enter in the edit mode of the sub-menu items, click on the main menu button **1** and on **"Options"** **2**.
- To add a new item, click on **"Custom item"** **3**, wait for the list of all available actions to be displayed and choose one of them **4**.
- To edit an existing item, click on the **"Edit"** icon **5** at the right of the item and select a new action from the available actions list **4**.
- To delete an existing item, click on the **"Edit"** icon **5** at the right of the item and select **"None"** **6**.

i Long-pressing the main menu button **1** does select the first item of the sub-menu **7**. You can set up here the action you use the most.
