

# How to create a set of waypoints?

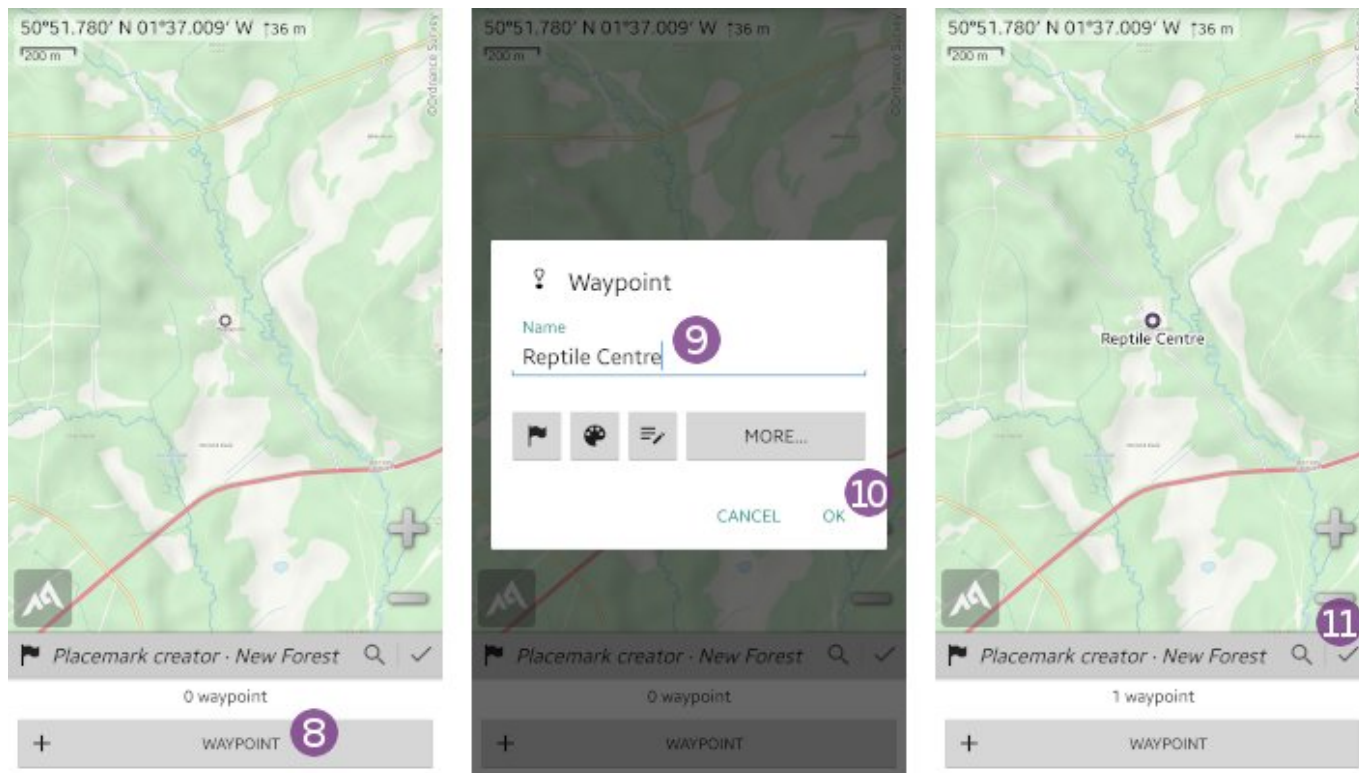

- Tap on the screen center icon **1** and on **"Create a placemark..."** **2**;
- Choose **"Set of waypoints"** **3**;
- If desired, type a name in the **"Name"** **4** text field;
- If desired, change the folder **5** in which to save the set of waypoints;
- If desired, change other properties like the color or the icon by tapping on **"More..."** **6**;
- Tap on **"Ok"** **7** to validate.

The edit mode is activated, you can now add waypoints:

- Move the screen center icon over the location where to add a waypoint and tap on **"Waypoint"** **8**;
- If desired, type a name for the waypoint in the **"Name"** **9** text field and change other properties by tapping on **"More..."**;
- Tap on **"Ok"** **10** to validate.

The new waypoint is displayed on the map. Add as many waypoints as wanted, and when finished, tap on the **"Save & close"** **11** icon.

## How to add, move or delete points of a set?

To add waypoints to a set:

- Tap on any waypoint of the set **1** and on the set icon **2** right of the waypoint name;
- Scroll the menu to the bottom and choose **“Edit points”** **3** to activate the edit mode;
- Tap on **“Waypoint”** **4** to add waypoints as explained above.

To edit, move or delete an existing waypoint using the edit mode, tap on one waypoint **5** of the edited set of waypoints, and tap on:

- **“Edit details”** **6** to edit the details of the waypoint (name, icon, description, etc.);
- **“Move to center”** **7** to move the waypoint to the screen center **8**;
- **“Delete”** **9** to delete the waypoint.

When you've done, tap on the **“Save & close”** **10** icon to close the edit mode.
