

# How to suggest a new community map?

If you know a freely and publicly available online map, don't hesitate to suggest it so we can check if it can be added to the community maps list.

-  Copyrighted maps or with subscriptions cannot be added this list.
-  Please check that the map you want to suggest is not already available in the [community maps list](#).

To suggest a new map:

- Display the list of available on-demand maps [as explained here](#);
- Tap on the “+”  button and wait for the community maps list  to be displayed;
- Check if your map is not already listed;
- If not, tap on “**Suggest a map**” ;
- Enter the exact map server URL in the “**Url**”  text field, a small comment about the map in the “**Comment**”  text field and your e-mail address in the “**E-mail**”  text field so we can give you an update;
- Tap “**Ok**”  to submit your suggestion. We'll review the information you've submitted and see if we can add this map to the community maps list.
